IRIMO

CATALOGUE

A LONG HISTORY IN SMALL BITS

1930's:

IRIMO was created in the Basque Country (Spain) in 1930 and began manufacturing cart axles and mill balls for cement factories. Later, it expanded to sophisticated tools, half shafts and wheel spindles for the automotive industry.

1940's:

Despite the difficult decade, IRIMO led the way, inventing the heavy duty adjustable wrench which out-performed any other type of spanner.

1950's:

The Heavy duty adjustable wrench receive International recognition, being awarded the Gold Medal at the International Inventor Show in Brussels.

1960's:

IRIMO continued its commitment to industrial modernity with the introduction of the socket wrench.

1970's:

IRIMO after various innovations, it expanded the manufacturing plant. With various innovations and plenty of growth over the next few decades.

2005:

In 2005 IRIMO celebrated 75 years of industry excellence and launched Special Edition range of tools.

Today:

IRIMO continues to work on its commitment to adapt to the new market challenges of the hand tool business for professionals.

FOLDABLE TRANSPORTER

- Robust
- Elastic bands included to fix the load (safety feature)
- Steel frame
- 250 x 450 mm aluminum footplate
- 170 mm PP wheels
- Overall size:
480 x 420 x 740-1000 mm

9063FT90	1	250x450	90	170	4.3

Workbench

FOLDABLE WORKBENCH

- Multifunction Steel Workbench
- Quick clamping: flexible clamping options
- Bench top can be adjusted to different heights to meet various needs
- Strong steel frame and solid structure:
- Max. Load Capacity = 100 kg
- Large wooden work surface
- Foldable: easy to carry & storage
- Overall size:
 - Unfolded: 605 x 670 x 800 mm
 - Folded: 605 x 900 x 200 mm

Fabric bags

TOOL BAG WITH TUBULAR HANDLE

- 17" Open style bag for easy quick view and accessibility to the tools
- Soft bottom reinforced with plastic feet
- Hard waterproof bottom
- 11 Different vertical side pouches for better tool organization
- Aluminum handle for strengthening the structure with foam grip
- Detachable shoulder strap with cushion on the adjustable shoulder part for easier transportation
- 600x300 Denier fabric ensures product performance and longevity
- Delivered folded

ADJUSTABLE CLICK WRENCH WITH INTERCHANGEABLE HEADS

- Adjustable mechanical click torque wrenches
- Precision: $\pm 4\%$
- 9x12 and 14x18 interchangeable heads
- Plastic handle for higher comfort
- Standard: ISO6789

Stand alone

MEE-SA-SS-IR

- Material: metal and plastic
- Color: black and green
- The display can be used to expose 3 different socket sets: small - medium - big
- The following socket sets can be exposed:
 - Small socket set (109-35-4)
 - Medium socket set (119-18-4 or 129-23-4)
 - Big socket set (129-58-4 or 129-101-4)
- Includes 3 wall racks with a methacrylate cover
- MEE-SA-SS-IR: Delivered already mounted & empty

5. CLAMPING TOOLS

Bench vices

ROUND GUIDE VICE

- Round guide bench vice
- Heavy duty
- Manufactured by high grade cast steel
- Interchangeable jaws
- Oversized anvil
- Laminated spindle thread
- Smooth operation
- Can be used with swivel base

R	Icon	mm	B mm	C mm	D mm	L mm	g

SQUARE GUIDE VICE

- Heavy duty square guide bench vice
- Manufactured from high grade cast steel
- Interchangeable jaws
- Oversized anvil
- Laminated spindle thread for smooth operation
- Can be used with swivel base
- Free play adjustment via screw mechanism
- With pipe holding jaws

207071	1	175	250	94	211	551	30.100

SQUARE GUIDE VICE

- Heavy duty square guide bench vice
- Manufactured from ductile iron, with similar characteristics to steel
- High impact resistance and durability
- Fitted with swivel base
- Large square anvil
- Added a stop pin at the main screw end to prevent jaw from falling out
- Spare jaws and spindle available
- GS certification

T-handle screwdrivers

T-HANDLE WITH HEXAGONAL TIP

- Blade is made of high quality steel. Black finish
- The long blade allows to apply a controlled torque and provides an easy access to screws requiring depth
- The short 90° blade is used for extreme torque or to work in areas where height is limited
- Size and part number are laser branded on the blade for easy identification
- Rotating cap in the handle that allows a fast finger movement during turning reducing tightening time

T-HANDLE WITH HEXAGONAL BALL TIP

- Blade: high quality steel. Black finish
- The long blade allows to apply a controlled torque and provides an easy access to screws requiring depth
- The short 90° blade is used for extreme torque or to work in areas where height is limited
- Ball end allows to easily insert the tip in the screw head from a range of angles
- More efficient and time saving than a standard T Handle
- Branding: size and part number laser branded in the blade for easier identification

TORSION BIT FOR PHILLIPS HEAD SCREWS, 25 MM

- Drive: 1/4" DIN 3126-C 6,3, ISO 1173
- Finish: steel grey surface coated with clear lacquer for rust protection
- Material: high performance alloy steel
- Application: torsion bits are suitable for hard material applications
- Torsion zone that absorbs torque peaks avoiding premature wear and tear and improving service life
- In plastic box of 10 pieces

DIAMOND BIT FOR PHILLIPS HEAD SCREWS, 25 MM

- Drive: 1/4" DIN 3126-C 6,3, ISO 1173
- Finish: gold coloured diamond coating
- Material: high performance alloy steel
- Application: high performance in any application
- Minimises the cam-out effect reducing "down-time"
- Reduces wear of bit and screw
- Torsion zone that absorbs torque peaks avoiding premature wear and tear and improving service life
- In plastic box of 5 pieces

Precision screwdriver set for precision engineering and electronics applications

RATCHETING BIT HOLDER PRECISION SCREWDRIVER WITH 17 PIECES BITS

- Bits drive: 5/32" DIN 3126-C 4, ISO 1173
- Bits: made of chrome-vanadium steel, durable and high precision
- Handle: 2-component handle
- The rotating head allows an easy and accurate driving
- Magnetic blade secures bit in screwdriver
- Smooth ratcheting stroke: Three position ratchet mechanism: forward, reverse and neutral
- In blister packaging

Mini pliers

MINI COMBINATION PLIERS

- Mini combination pliers for fine assembly work in electronics and fine mechanics
- With gripping zones for flat and round material, suitable for versatile use
- With cutting edge for soft wire
- Cutting edge hardness: 58-65 HRc
- Soft grip bimaterial handles provide comfort and control
- Equipped with a return spring
- High performance alloy steel
- Standard: ISO9655
- Cutting capacity:
 - 1- Min. cutting capacity Cu: 0.5 mm
 - 2- Max. cutting capacity medium hard wire: 0.8 mm

Crimping pliers

CRIMPING PLIER INSULATED TERMINALS

- Pliers made of thick metal steel sheet and working areas are hardened
- Light, occupy small volume and are easy to carry in the toolbox
- Suitable for crimping, cutting and stripping operations
- Crimping terminals: 1.5/2.5/6 mm²
- Cutting: M2.6-M5.0
- Stripping: 0.75-6.0 mm²

Hacksaw frames and blades

UNIVERSAL HANDSAWS

- Screwed 2-component handle
- Handle can be used for approximate 45° and 90° marking guide
- Handsaw for all types of wood

Q	mm	mm	mm	g	
800-168-1	10	400	16	8	320
800-208-1	10	500	20	8	360
800-228-1	10	550	22	8	380

TENON SAW

- Tenon saw for fine and medium thick materials, specially adapted for cutting of small-diameter timber and mitre guide sawing
- Hardpoint universal teeth for long lasting sharpness
- Heavy steel back for rigidity and accurate cutting
- Screwed plastic handle

Q	mm	mm	mm	g	
800-131-1	10	300	12	15/16	450

GENERAL PURPOSE HANDSAW

- General purpose saw with fine teeth for smooth sawing in a wide variety of materials, including aluminium, plastics, laminates, wood and chipboard
- Hardpoint fleam-toothing
- Toolbox size
- Screwed 1-piece plastic handle
- Ideal to carry in a toolbox

800-151-1	4	300	12	225

DOVETAIL FLEX HANDSAW

- Saw blade for cutting wood & plastic materials
- Universal toothing, hardpoint teeth for long lasting sharpness
- Light steel back for rigidity
- Angled wooden handle to allow flush cutting
- Handle swings to allow both left and right hand sawing where access is restricted

800-111-1	4	250	10	240

COMPASS SAW

- Compass saw for all kinds of wood and plastic material
- Hardpoint universal teeth for long lasting sharpness
- Screwed, 1-piece, plastic handle

800-141-1	4	300	7/8	120

ALUMINIUM HACKSAW FRAME

- Supplied with 300 mm (12") reliable and shatterproof bi-metal blade 24 TPI
- A professional and strong hacksaw frame
- Alternative 55° blade mounting for flush cutting

801101	5	400 (300)	748

HACKSAW FRAME

- Traditional design
- Easy to use hacksaw frame

801-041-1	10	110	151	400	665

BI-METAL

- Shatterproof bi-metal blade with precision teeth for all kinds of metal sawing
- Bi-metal blade is guaranteed to keep its sharpness for a long time
- Packaging:
 - 50 are 50 blades in a plastic box and
 - 5 are 5 blades in a special package with hanging loop

803-318-5	5	300x13x0,65	18	17

PM5248	1	-	For 8 mm hose	10

1/4" Quick Connector

- Works with 4 standard male connector profiles
- Security lock enabling the operator to turn the airflow on and off, providing a safer and more simplified operation
- Steel construction with composite coating, making it extremely durable

R			BAR		kg
PQCF14	10	1.600	14	1,4"	0,100

In line lubricator

- Install either in the tool air input, or in the 1/4" hose thread

R			kg
PN251	1	1,4"	0,10

Filter Regulator

- When compressing atmospheric air, which always has a humidity rate, liquid water is generated in the pneumatic circuits. It is necessary to filter this water to protect the circuit and the air operated tools
- Use an air filter and regulator for the spray guns
- Technical data:

- Air connection	1/2"
- Bowl capacity	100 ml
- Gauge diameter	50 mm
- Pressure regulation range	0.5-10 bar
- Minimum temperature	+5°
- Maximum temperature	60°
- Nominal flow	3.200 NL/mn
- Filtering size	20 m

P254	1	1,04

Filter Regulator Lubricator

- When compressing atmospheric air, which always has a humidity rate, liquid water is generated in the pneumatic circuits. It is necessary to filter this water to protect the circuit and the air operated tools
- For the rest of pneumatic tools used in repair or body shop, it is necessary to use an air filter, regulator and lubricator
- Technical data:

- Air connection	1/2"
- Bowl capacity	100 ml
- Gauge diameter	50 mm
- Pressure regulation range	0.5-10 bar
- Minimum temperature	+5°
- Maximum temperature	60°
- Nominal flow	3.200 NL/mn
- Filtering size	20 m

P255	1	1,42

Cordless screwdriver

3.6V CORDLESS SCREWDRIVER

- 3.6V Li-ion rechargeable battery
- 1/4" hex quick release bit holder
- 6+1 torque positions
- LED light to lighten the working area
- 4 LED lamp to work as a regular torch
- Adaptable handle in straight or pistol shapes
- One hand forward/reverse change
- Integrated colour LEDs to know the battery status
- 4 screwdriver bits included
- Packed in a retail color cardboard box

3.6SDR	1	3.6	95x65x35	200	400

Cordless lamps with Li-Ion rechargeable batteries

FLEX LED LAMP

- Standard LED lamp
- ABS housing resistant to impact and range of garage fluids
- IP 65
- 180° flex handle
- Magnet on base
- Foldable back leg to use a support or a hook
- 360° fully rotational foldable hook
- Wrist cord

L21	1	X		X	X		4	2,5	204x64x30	230

SMD FLEX TORCH LAMP WITH LI-ION RECHARGEABLE BATTERY

- High power SMD LED torch lamp
- Torch and lamp function in one single unit
- 180° flex handle
- Strong magnet on base
- Double magnet at the back
- Double 360° fully rotational foldable hooks
- Wrist cord

L31	1	170		50	X	X	4	4	249x53x43	280

Pocket lamps

SMD ALUMINIUM PENLIGHT

- SMD LED lamp
- Strong Aluminium housing
- 180° rotational hook with magnet
- Additional magnet on the base
- 3 AAA alkaline batteries included
- Operating mode: ON/OFF

L14	1	4		161x16x30	110	61

COB POCKET WORKLIGHT

- COB LED pocket torch lamp
- 360° fully rotational hook
- Foldable back support
- Magnet at the back
- 3 AAA alkaline batteries included
- Operating mode:
Torch- Lamp 100% - Lamp 50% - OFF

L13	1	2-4		95x65x35	9	115

Flash lights

COMPACT LED TORCH WITH ADJUSTABLE FOCUS

- Compact LED torch with adjustable focus
- Lumens <60 lm
- Light beam angle: 7-80°
- Waterproof grade IP41
- Comes with 3AAA alkaline batteries
- On/Off operation modes
- Autonomy 5 h

L01-1	1	105x37x37	3AAA	50

FRONT LED LAMP WITH ADJUSTABLE FOCUS

- Front LED lamp with adjustable focus
- CREE XNL T6 10W LED
- Lumens \approx 400 lm
- Light beam angle: 15-105°
- Supplied with fully adjustable straps to adapt to all user heads
- Waterproof grade IP44
- Comes with 3AAA alkaline batteries
- H-L-Strobe-Off operation modes
- Autonomy: 2,5-8 h

L51-1	1	3AAA	80x120x120	132

Corded lamps

CORDED LAMP

- 11 W lamp
- 5 m cable
- Reduced consumption
- IP54 dust and water protection
- 8000 Hour bulb duration
- Polycarbonate screen resistant against impact

ZL2216	1	230	11	5	480	700

Benefits to your business of our POS material:

- The IRIMO exhibitors are a perfect solution that contributes to improving the point of sale management.
- With their attractive design, these displays will help enhance the image of the store.
- This solution facilitates stock control and at the same time, optimize display space.

NOTE: Below are some examples; for more information about different accessories and sizes, please contact us and we will offer the ideal solution suited to your needs.

MEE-SIGN-CARR-I SIGN CARRIER+SIGN IRIMO (100 cm)

Standards

What is a standard?

A standard is a document that provides requirements, specifications, guidelines or characteristics that can be used consistently to ensure that materials, products, processes and services are fit for their purpose.

What are the benefits of ISO International Standards?

ISO International Standards ensure that products and services are safe, reliable and of good quality. For business, they are strategic tools that reduce costs by minimizing waste and errors, and increasing productivity. They help companies to access new markets, level the playing field for developing countries and facilitate free and fair global trade.

IRIMO main product families

Socket wrenches

- ISO 2725, hand sockets, general dimensions; ISO 1174, driving squares. The standards define the limits to certain dimensions to avoid the play between the socket and the bolt, the accessibility to reach, and guarantee the correct torque transmission and to work with nuts and studs.
- ISO 1711, hand and impact sockets, define the minimum hardness that a socket should have, and the minimum torque that a socket should resist. This assures that only the right material has been used, and the socket will be able to be used without breakage risk.
- The profile of the sockets, hex and biex, was designed for a much better distribution of the strength far from the corners to avoid possible breakings. At the same time the transmission of the torque to the bolts and nuts is made out of the edges, protecting the life of the components.

Adjustable Wrenches

- Stands ISO 6787 standard torque values plus 30% without opening and deformation.
- General dimensions of adjustable wrenches according to ISO 6787 standard.
- Design forged in one piece.

Spanners-Wrenches

- Stands ISO 1711-1 standard torque values plus 30% without opening and deformation.
- Higher hardness according to ISO 1711-1, without fragility risk.
- Wrench end fitting tolerance according to ISO 691 gives higher performance and better transmission of the torque to the bolts and nuts.

Pliers

- ISO standards on pliers define, for each product family, the basic dimensions of the product. In addition to this, when applicable ISO standards also define:
 - Maximum acceptable deformations after a load test.
 - Maximum acceptable deformations after a torsion test.
 - Maximum acceptable cutting force tests.
- The most important ISO standards for pliers are:
 - ISO 5745 Pliers for gripping and manipulating – Dimensions and test values.
 - ISO 5746 Engineer's and "Lineman's" pliers – Dimensions and test values.
 - ISO 5749 Diagonal cutting nippers – Dimensions and test values.
 - ISO 8976 Multiple slip joint pliers – Dimensions and test values.
 - ISO 9242 Construction worker's pincers – Dimensions and test values.
 - ISO 9243 Pliers and nippers – Carpenter's pincers – Dimensions and test values.

Torque wrenches

ISO 6789 classifies the torque wrenches into different types (I, II) and classes (A,B,C,D,E,F).

The ISO standard assigns different accuracy levels (4% or 6%) depending on the type, class and max torque of each wrench.

This accuracy needs to be accomplished between 20% and 100% of the maximum torque of the wrench.

The standard also establishes the calibration procedure, conditions and frequency as well as other tests and product requirements.

IRIMO torque tools comply with ISO 6789 standard and SNA Europe offers calibration services in his internal After Sales Centers.

Screwdrivers

ISO standards on screwdrivers define the tip dimension, the minimum hardness and the minimum torque that they should resist.

After torque testing with the minimum value, screwdrivers shall not show any deformation on injuries at the tip:

- ISO 2380 Slotted screwdrivers – Dimensions, hardness and minimum torque values.
- ISO 8764 Phillips and Pozidriv screwdrivers – Dimensions, hardness and minimum torque values.
- ISO 2936 Hexagon screwdrivers – Dimensions, hardness and minimum torque values.

However, the Irimo screwdrivers must meet Internal Standards that are above the ISO standard.

Internal torque values standards is 20% over the ISO standard for Slotted screwdrivers and 50% in Phillips and Pozidriv screwdrivers.

The combination of the raw material and hardness determines the performance of the blade, longer life and quality work Internal hardness; Minimum SNA Europe 58-59 HRc. Minimum ISO standards 54 HRc.

TORX® drivers; torque values are evaluated with testing gauges of Acument Global Technologies Inc., licensor of TORX®.

Dear Colleagues,

SNA Europe is committed to providing its customers with products that are fully compliant with all regulations, international protocols and customer standards to which they are subject. In this respect, SNA Europe complies with appropriate international regulations and directives, including REACH, RoSH, WEEE, **CE**, Conflict Minerals, etc.

Regarding REACH European regulation N° 1907/2006, it requires suppliers of any product to inform the customer of the presence of substances of very high concern (SVHC) (<http://www.echa.europa.eu/candidate-list-table>) listed in the relevant and official list above a concentration of 0.1% weight by weight (w/w). The ECHA, European Chemicals Agency, recently added several chemical substances to the list and as of December, 2014 there are 161 substances in the Candidate List of SVHC. The compliance in REACH prevents the user from probable serious effects to human health (and/or) the environment, including carcinogenic, toxic and mutagenic categories.

The definition and aim of the RoHS directive is quite simple. The RoHS directive aims to restrict certain dangerous substances commonly used in electronic and electronic equipment. Any RoHS compliant component is tested for the presence of Lead (Pb), Cadmium (Cd), Mercury (Hg), Hexavalent chromium (Hex-Cr), Polybrominated biphenyls (PBB), and Polybrominated diphenyl ethers (PBDE).

The Waste Electrical and Electronic Equipment Directive (WEEE Directive) is the European Community directive 2012/19/EU on waste electrical and electronic equipment (WEEE) which, together with the RoHS Directive 2002/95/EC, became European Law in February 2003. The WEEE Directive set collection, recycling and recovery targets for all types of electrical goods, with a minimum rate of 4 kilograms per head of population per annum recovered for recycling by 2009.

The **CE** marking is the manufacturer's declaration that the product meets the requirements of the applicable EC directives.

The term Conflict Minerals refers to raw materials that come from a particular part of the world where conflict is occurring and affects the mining and trading of those materials. These are defined as columbite-tantalite, also known as coltan (from which tantalum is derived); cassiterite (tin); gold; wolframite (tungsten); or their derivatives; to be financing conflict in the Democratic Republic of the Congo or an adjoining country.

SNAEurope

Warranty

1. Where permitted by law, all hand tools in the catalogue are offered with a lifetime warranty - a warranty against material and manufacturing defects for the normal lifetime of the tool in question. 'Lifetime' is defined as the period of time a tool can be expected to last under normal use and conditions.
2. SNA Europe's range of power tools, pneumatic tools and measuring tools are excluded from point 1 and each has a separate warranty card supplied with the product covering the specific warranty conditions. Products are designed and manufactured for professional use. Generally the warranty period is one year (12 months) for professional use and two years (24 months) for private use. The warranty period starts on the purchase date. This date may be verified with the invoice or any other document of equivalent legal validity.
3. Defective products will be repaired, replaced or substituted. SNA Europe does not cover transit costs for repaired, replaced or substituted products.
4. Any product that has been incorrectly used and/or maintained or that is worn from improper use or that has suffered unauthorized modifications is not covered by this warranty.
5. A warranty claim must be submitted within the warranty period. This requires the submission or shipment of the complete tool in question with verification of sale documentation, which must validate the purchase date and the product designation, to the retailer or distributor.
6. Replacement or repair of the product will be carried out as quickly as possible. At the reception of the replaced or repaired product the customer is asked to validate conformity. Replacements and repairs provided under the warranty do not lengthen or renew the warranty period for the tool.
